

**Title:** Assistant Scientist Internship

**Reports To:** RTSA Research Director

**Job Classification:** Summer Position (full-time)

**Description:** RTSA's assistant scientist internship is designed to give students majoring in urban forestry or a related field an opportunity to participate in conducting field research on a broad range of topics that are prevalent in urban forestry. It is expected that the intern will assist and work with the RTSA research director in conducting multiple research projects. Students will assist with all facets of the research process from experimental design to data analysis. RTSA research projects focus on identifying practical approaches for managing insects, diseases and other problems that affect tree health.

**Qualifications:**

- Currently a Jr./Sr. level undergraduate student or graduate student
- Educational experience/work experience in urban forestry/related field
- Current United States driver's license
- Personal automobile with insurance coverage
- Willingness to work outdoors
- Some out of state travel may be required

**Compensation:**

- \$1,730.00/month

**Application Deadline and Procedures:**

Submit resume and application by **April 9th, 2010** to the address listed below. Applicants will be selected for interviews by April 16<sup>th</sup>. Interview will be made by RTSA research director and additional management team members through candidate interview process in Minnetonka, MN.
