SECTION 1. CHEMICAL PRODUCT AND COMPANY INFORMATION

Product Name: COMPASS™ FUNGICIDE
MSDS Number: 102000011560
EPA Registration No.: 432-1371

Bayer Environmental Science
2 T.W. Alexander Drive
Research Triangle PK, NC 27709
USA

For MEDICAL, TRANSPORTATION or other EMERGENCY call: 1-800-334-7577 (24 hours/day)
For Product Information call: 1-800-331-2867

SECTION 3. HAZARDS IDENTIFICATION

NOTE: Please refer to Section 11 for detailed toxicological information.

Emergency Overview
Caution! Causes eye irritation. Harmful if absorbed through skin. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Avoid contact with skin, eyes and clothing. Wash thoroughly with soap and water after handling.

Physical State
granular solid

Appearance
brown

Routes of Exposure
Eye contact, Skin contact, Skin Absorption, Inhalation

Immediate Effects

Eye
May cause mild irritation to eyes. Do not get in eyes.

Skin
May cause slight irritation. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Harmful if absorbed through skin.

Ingestion
Do not take internally.

Inhalation
Do not breathe dust or spray mist.
Chronic or Delayed Long-Term This product is not listed by NTP, IARC or regulated as a carcinogen by OSHA. This product or its components may have long term (chronic) health effects.

Medical Conditions Aggravated by Exposure As with all materials which can cause upper respiratory tract irritation, persons with a history of asthma, emphysema, or hyperreactive airways disease may be more susceptible to overexposure. Individuals with allergic history or pre-existing dermatitis should use extra care in handling this product.

Target Organs Liver

Potential Environmental Effect Toxic to fish and aquatic invertebrates.

SECTION 4. FIRST AID MEASURES

General When possible, have the product container or label with you when calling a poison control center or doctor or going for treatment.

Eye Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a physician or poison control center immediately.

Skin Take off contaminated clothing and shoes immediately. Wash off immediately with plenty of water for at least 15 minutes. Call a physician or poison control center immediately.

Ingestion Call a physician or poison control center immediately. Rinse out mouth and give water in small sips to drink. DO NOT induce vomiting unless directed to do so by a physician or poison control center. Never give anything by mouth to an unconscious person. Do not leave victim unattended.

Inhalation Move to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a physician or poison control center immediately.

Notes to Physician Treatment There is no specific antidote. Appropriate supportive and symptomatic treatment as indicated by the patient's condition is recommended.

SECTION 5. FIRE FIGHTING MEASURES

Flash point not applicable

Autoignition Temperature 320 °C / 608 °F
Fire and Explosion Hazards
In the event of fire the following can be released:
- Hydrogen cyanide (hydrocyanic acid)
- Hydrogen fluoride (HF)
- Carbon monoxide (CO)
- Nitrogen oxides (NOx)

Suitable Extinguishing Media
Dry chemical, Foam, Carbon dioxide (CO2), Water

Fire Fighting Instructions
Evacuate personnel to safe areas. Avoid contact with spilled product or contaminated surfaces. Contain the spread of the fire-fighting media. Keep out of smoke. Do not allow run-off from fire fighting to enter drains or water courses.

After fire is extinguished, do not turn on any ignition source until the area is determined to be free from explosion or fire hazard.

Firefighters should wear NIOSH approved self-contained breathing apparatus and full protective clothing.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal Precautions
Keep unauthorized people away. Isolate hazard area. Avoid contact with spilled product or contaminated surfaces. Use personal protective equipment.

Methods for Cleaning Up
Sweep up or vacuum up spillage and collect in suitable container for disposal. Collect and transfer the product into a properly labelled and tightly closed container. Avoid dust formation. Decontaminate tools and equipment following cleanup. Clean contaminated floors and objects thoroughly, observing environmental regulations. Contaminated soil may have to be removed and disposed.

Additional Advice
Do not allow to enter soil, waterways or waste water canal. Information regarding waste disposal, see section 13.

SECTION 7. HANDLING AND STORAGE

Handling Procedures
Handle and open container in a manner as to prevent spillage. Avoid contact with skin, eyes and clothing. Maintain exposure levels below the exposure limit through the use of general and local exhaust ventilation.

Keep away from heat and sources of ignition.

Storing Procedures
Store in a cool, dry place and in such a manner as to prevent cross contamination with other pesticides, fertilizers, food, and feed. Store in original container. Store in a place accessible by authorized persons only.

Work/Hygienic
Handle in accordance with good industrial hygiene and safety practice. Wash
Procedures

- Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, using the toilet or applying cosmetics.
- Remove Personal Protective Equipment (PPE) immediately after handling this product. Remove soiled clothing immediately and clean thoroughly before using again. Wash thoroughly and put on clean clothing.

Min/Max Storage Temperatures

- No data available

SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

General Protection

- Keep and wash PPE separately from other laundry. Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and warm/tepid water.

Eye/Face Protection

- Safety glasses with side-shields

Hand Protection

- Chemical resistant nitrile rubber gloves

Body Protection

- Wear long-sleeved shirt and long pants and shoes plus socks. Coveralls

Respiratory Protection

- When respirators are required, select NIOSH approved equipment based on actual or potential airborne concentrations and in accordance with the appropriate regulatory standards and/or industry recommendations.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance

- Brown

Physical State

- Granular solid

Bulk Density

- 27 - 32 lb/ft³
Water solubility 0.00061 g/l

SECTION 10. STABILITY AND REACTIVITY

Hazardous Reactions No hazardous reactions when stored and handled according to prescribed instructions.

SECTION 11. TOXICOLOGICAL INFORMATION

Only acute toxicity studies have been performed on the formulated product. The non-acute information pertains to the technical-grade active ingredient, trifloxystrobin.

Acute Oral Toxicity  
rat: LD50: > 5,050 mg/kg

Acute Dermal Toxicity  
rat: LD50: > 2,000 mg/kg

Acute Inhalation Toxicity  
rat: LC50: > 2.7 mg/l  
Exposure time: 4 h  
Determined in the form of dust.

     rat: LC50: > 10.8 mg/l  
Exposure time: 1 h  
Determined in the form of dust.  
Extrapolated from the 4 hr LC50.

Skin Irritation  
rabbit: Slight irritation.

Eye Irritation  
rabbit: Mild eye irritation.

Sensitization  
guinea pig: sensitizing

mouse: sensitizing

Chronic Toxicity  
Trifloxystrobin caused liver effects in chronic studies in mice, rats and/or dogs.

Assessment Carcinogenicity  
Trifloxystrobin was not carcinogenic in lifetime feeding studies in rats and mice.

ACGIH  
None.

NTP  
None.

IARC  
None.

OSHA  
None.

Reproductive & Developmental Toxicity  
REPRODUCTION: Trifloxystrobin is not considered a primary reproductive toxicant in rats.
DEVELOPMENTAL TOXICITY: Trifloxystrobin is not considered a primary developmental toxicant in laboratory animals. Developmental effects were observed only at doses that caused maternal toxicity.

Neurotoxicity

Trifloxystrobin is not a primary neurotoxicant based on an acute (oral gavage) neurotoxicity screening study in rats.

Mutagenicity

Trifloxystrobin was not considered mutagenic or genotoxic based on in vitro and in vivo tests.

SECTION 12. ECOLOGICAL INFORMATION

Environmental Precautions

Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate surface or ground water by cleaning equipment or disposal of wastes, including equipment wash water. Do not apply when weather conditions favor runoff or drift.

SECTION 13. DISPOSAL CONSIDERATIONS

General Disposal Guidance

Dispose in accordance with all local, state/provincial and federal regulations. Follow container label instructions for disposal of wastes generated during use in compliance with the product label. It is best to use all of the product in accordance with label directions. If it is necessary to dispose of unused product, please follow container label instructions and applicable local guidelines.

Container Disposal

Do not re-use empty containers. Triple rinse containers. Puncture container to avoid re-use. Consult state and local regulations regarding the proper disposal of container. Follow advice on product label and/or leaflet.

SECTION 14. TRANSPORT INFORMATION

TRANSPORTATION CLASSIFICATION:
Not regulated for transportation

FREIGHT CLASSIFICATION:
Insecticides or Fungicides,N.O.I.; other than poison

SECTION 15. REGULATORY INFORMATION

EPA Registration No. 432-1371

US Federal Regulations

TSCA list

Diatomaceous earth 61790-53-2
US. Toxic Substances Control Act (TSCA) Section 12(b) Export Notification (40 CFR 707, Subpt D)
None.
